1.0 ETHOS

We believe that everyone has a personal best and that we play a vital role in making this a reality. All pupils will be given opportunities and support to reach their potential, achieve well and succeed in life beyond school.

2.0 BACKGROUND

The Willows School is a new, independent special school, which is part of Prosperity Children's Services. We will provide education for up to 20 pupils aged 5 to 16 years who have a range of complex needs, including social and communication difficulties, autism, trauma.

Many pupils will have limited positive experiences of school and may be working below age related expectations. Most pupils will have an Education, Health and Care Plan (EHCP) and will have experienced significant disruption in their education and/ or home lives. Many pupils will be looked after; some in our own Ofsted registered children's residential homes.

All pupils will receive 32.5 hours of education per week, in line with revised expectations for mainstream schools. Pupils will learn in small groups of up to five pupils. Many will receive significant one to one support, to enable them to progress towards working independently and as part of a group. All pupils will have a full-time education programme.

Our school will be a positive, well-resourced place to learn and work. Facilities include a range of teaching rooms, including those which are subject specific, e.g. a Food Technology room.

Our staff will be proactive in challenging perceived derogatory views about the legally protected characteristics, as set out in the Equality Act 2010, of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation, through exploration of, and development of mutual respect for those different to themselves.

3.0 AIMS AND INTENT

3.1 Aims

Our curriculum is pupil-centred, ambitious, relevant and engaging. We have high aspirations and expectations of all pupils. They should leave our school with a range of experiences, skills and qualifications which will act as currency, providing them with a solid foundation for success in life.

We aim to:

- deliver a broad, balanced and ambitious curriculum, based on the National Curriculum, differentiated as is appropriate to individual pupil's needs and interests.
- provide a framework for teaching and learning, within which there is flexibility and scope for this adaptation and creativity to take place.
- ensure high quality teaching and learning experiences for all pupils.
- support pupils' needs and requirements so they can access, enjoy and succeed in school.
- provide the experiences and skills pupils need to be well prepared for their next stage of life; for further education, employment and to play active and fulfilling roles in society.
- ensure staff are well supported to deliver our curriculum by providing continuing professional development, guidance and support to deliver excellent education and support for pupils.

We recognise that being a new school will present challenges and opportunities too. As our cohort of pupils grow, we will modify our curriculum to meet their needs and interests. As such, the curriculum will be kept under at least annual review.

Part of our review will include:

- I. what we **intend** pupils to learn
- II. the effectiveness of the range of teaching activities we use to **implement** our curriculum
- III. the **impact** of the curriculum, i.e. how well the content is learned by pupils, as evidenced by their overall progress and outcomes.

3.2 Intent - our curriculum thinking and high-level planning

Although independent schools are not required to follow the National Curriculum, we have decided to follow it as far as possible, modified where necessary, in line with pupils' specific needs. We aim to give pupils experience across all areas as appropriate. Our pupils will be aged between 5 - 16 years, so will be in Key Stages 1, 2, 3 and 4.

Our curriculum is a vehicle for learning. It promotes the development of the whole child and is the mechanism for giving purpose and meaning to all aspects of school life. The curriculum is not only a collection of taught subjects but is composed of every single moment of every school day. We will seek out and make the most of every one of those moments, providing opportunities for pupils to learn, gain skills and develop personally and socially as they progress toward adult life.

Our curriculum content will change over time as our pupil cohort changes. The curriculum will reflect the pupils' needs, interests and aspirations.

3.3 Our School Motto

Our aim is for pupils to develop a joy of learning, and our school motto reflects this, having been inspired by other inspirational professionals who share mutual aims in respect of education. "**Dream, Believe, Achieve**" promotes thinking about what might be possible; realising it can be possible and then making it happen.

At all Key Stages, our curriculum is structured to help pupils to secure success:

- academically,
- personally and developmentally, and
- in life beyond school.

3.4 What do we want pupils to learn?

Our curriculum will support pupils to:

- gain the knowledge they need to achieve the overall goals of their education as set out in their EHCP, as agreed upon admission, or identified and agreed as progress and needs are reviewed.
- gain the knowledge and skills which will be most important for their life chances. This will be based on their individual needs, difficulties and diagnoses, as well as strengths and interests.
- remember and recall learning as they make progress through the Key Stages and subjects.
- know the personalised targets, which help them to achieve the overall goals of their education.
- have high aspirations for their future, by learning about different careers, gaining employability skills, and preparing pupils for the world of work.

- gain a range of accreditation and qualifications.
- develop resilience, perseverance, creativity, innovation, leadership and enterprise.
- develop self-respect, a positive self-perception and resilience, by understanding their own health and well-being, and how to manage their emotions and behaviours effectively.
- develop spiritual, moral, social, cultural awareness and British Values; preparing them well for independent living in the local community and in modern Britain.
- embrace difference and diversity, including protected characteristics, through gaining a good awareness, understanding and developing respect for others.
- understand their rights and responsibilities and be able to express their views appropriately.

3.5 What is Academic Success?

Staff will support pupils to develop:

- understand, embrace and manage their individual diagnoses, challenges and talents
- the skills and knowledge they need to 'close the gap' with peers elsewhere
- academic success, which is pertinent to their own possibilities and passions
- a range of accreditation and qualifications for independence and career success.

3.6 What do we mean by Pupils' Personal Development?

Pupils will be supported through opportunities to promote and develop:

- positive attitudes and behaviour for learning
- effective learning and study skills
- social communication, emotional literacy and self-regulation
- working memory skills
- self awareness, keeping safe, healthy, fit and well.

3.7 Our Curriculum at Key Stage 1, 2 and 3 (Years 1 to 9)

As appropriate to pupils' needs, we will provide learning in the following subjects:

- English – Phonics in KS1 and KS2 where appropriate
- Maths
- Science; including elements from Biology; Chemistry and Physics
- Computing/ Information Technology (IT)
- Humanities, including History and Geography
- Design and Technology, including Food Technology
- Art and Design
- Music
- Physical Education (PE)
- Modern Foreign Language
- Personal, social, health, citizenship and economic education (PSHCEE)
- Relationships, sex and health education (RSHE)
- Religious education/ religious studies (RS)

We believe that where staff find regular opportunities for recognition, pupils become can taste success and become accustomed to achieving well in all subjects. Most pupils will leave with a desire to work hard, achieve and succeed. This will prepare them well for the demands of Key Stage 4, as well as becoming independent and succeeding in life beyond school.

3.8 Our Curriculum at Key stage 4 (Years 10 and 11)

During Key Stage 4 our aim is for most pupils to work towards nationally recognised qualifications including as appropriate, GCSEs. Our curriculum and qualifications offer provides for all pupils, taking account of their individual special educational needs. Many will have a highly personalised curriculum at Key Stage 4. Please see our Accreditation and Qualifications framework.

We will provide learning in the following core and foundation subjects:

Core subjects:

- English,
- Maths
- Science: one or more of Biology, Chemistry and/ Physics

Foundation subjects:

- Computing/ Information Technology (IT)
- Sports Studies/ Physical Education (PE)
- Citizenship as part of PSHCEE

Pupils will choose at least one additional subject from the range below. This offer will be extended further as our vocational curriculum and work-related learning develop over time.

- Art
- Music
- Food Technology
- Design and Technology
- Humanities – Geography, History, or Religious Studies (R.S)
- Modern Foreign Language

Our Key Stage 4 curriculum offer will support pupils to complete a range of qualifications. These will include Functional Skills, GCSEs, vocational and life skills qualifications, such as Basic First Aid and Food Hygiene. We aspire for every pupil to achieve GCSEs and/ or nationally recognised qualifications.

3.9 Relationships, Sex and Health Education, linked with Personal, Social, Health, Citizenship and Economic Education

In all Key Stages, pupils will study Relationships and Sex Education as well as Personal, Social, Health, Citizenship and Economic Education.

We follow statutory guidance in providing learning to all pupils in **Relationships and Sex Education**. *Parents and Carers have the right to withdraw their child from Sex Education up until three terms before their 16th birthday. After this point, if a pupil wishes to receive sex education, our school will arrange to provide the pupil with sex education during one of those terms (please see our **RSHE Policy**).*

At our school, **RSE** will be called **RSHE** (the 'H' represents 'Health'). It will include **Personal, Social, Health, Citizenship and Economic Education (PSHCEE)**. Our provision for PSHCEE will draw on good practice locally and nationally, including from the PSHE Association. We recognise that this is a vital element of the curriculum, pertinent to the needs of all our pupils.

We recognise that subject matter will need to be age and development appropriate, well planned and sequenced. It will be delivered as a thread throughout the broader curriculum, sometimes through standalone lessons. Staff will identify a range of methods and opportunities to deliver our programme, including having standalone days and a carousel of learning throughout the year.

RSHE lessons will be carefully planned and taught in a sensitive way, using a variety of resources. Pupils will learn how to keep themselves safe and well. They will learn how to develop and maintain positive relationships with others.

There is a focus at all Key Stages on the development of character attributes and skills, including confidence, self-esteem, resilience, managing risk, team working, respect, and critical thinking. Pupils will be well prepared for life in the wider community, learning how to become responsible citizens, how to manage their money well and make sound financial decisions.

Pupils will receive independent advice, guidance and support with careers. Please refer to our **Careers and Work Related Learning Policy** for more information about what will be delivered to all pupils. The school is committed to achieve the 8 Gatsby Benchmarks as the programme evolves.

Our school will provide regular opportunities, through assemblies, tutorials, lessons, social and leisure time for delivering learning in Social, Moral, Spiritual, Cultural (SMSC) Education, British Values and promoting respect for diversity and protected characteristics.

3.10 Religious Studies

We will follow statutory guidance in providing learning to pupils in **Religious Studies (RS)**. When Religious Studies is taught, it will be with reference to the Lancashire Locally agreed Syllabus (SACRE): [lancashire-agreed-syllabus-for-religious-education-2021-v11.pdf](https://www.lancashire.gov.uk/media/120221/2021-2022-sacre-syllabus-for-religious-education-2021-v11.pdf)

Whilst Religious Education must be taught to all pupils in maintained schools, as an independent special school, we will aim to draw on the subject and deliver it appropriately as far as is practical.

Any teaching of Religious Studies will reflect that the religious traditions in Great Britain are, in the main, Christian, while taking account of the teaching and practices of other key religions represented in Great Britain. We will promote tolerance and understanding of others and their beliefs.

At The Willows School, we recognise that it is vitally important for pupils to develop knowledge and understanding of others, their cultures and belief systems. This learning can go some way towards challenging myths, stereotypes, prejudices and discrimination.

Learning will be delivered through a range of methods and opportunities, including standalone days, learning about key events and festivals, topic based work, e.g. in Humanities throughout the year.

Parents have the right to withdraw their children from religious education and/ or collective worship. From the age of 16, pupils can choose to opt out of collective worship but not religious education without parental consent, until they are 18.

3.11 The Wider Curriculum

As a new school, we will be considering how we can develop our wider curriculum offer so that we can provide further opportunities for pupils to develop their talents and interests. Staff and pupils will be encouraged to set up different clubs which complement our curriculum, e.g. horticulture, photography, drama or a band, depending on the needs and interests of pupils.

The curriculum will cover key themes below, moving towards being a more needs-led curriculum and model of delivery as the pupil cohort grows and changes over time.

1. Relationships, Sex and Health Education (RSHE) – *includes statutory RSE, Health and Well-Being*
2. Living in the Wider World - *includes SMSC, Economic wellbeing, Careers Education and Citizenship*
3. Independence and Life Skills – *preparation for life at home, in a community and workplace*
5. Careers and Work Related Learning – *independent careers advice, employability and enterprise*

School Council

We are committed to gaining pupil voice and using ideas and feedback to inform future developments with the curriculum and life of the school. As our school becomes established, we will work with pupils to set up a School Council. Our staff recognise that pupils can be fantastic ambassadors for the school and need to be included in a range of initiatives, both in school and in the local community. This will start by working with staff to secure positive recognition, including 'Healthy Schools status' and 'Green Flag Award'.

3.12 Reading Across the Curriculum

We place a high priority on reading and recognise that it is a vital skill for life, on both a practical level and for pleasure. We focus on nurturing a love of books and learning to read at all Key Stages. Displays on corridors and resources in classrooms will promote a joy of reading for pleasure. Pupils will have several opportunities daily to read, including in Tutor time, in lessons, at break and lunchtime, as well as choosing books from an appropriate range to read at home. Parents and Carers will be encouraged to listen to their children read daily and provide feedback to staff.

Staff will focus on how best to support individual pupils to make rapid progress in reading, as soon as they join our school. For pupils who find reading more challenging, our staff team will provide extra support to enable them to catch up. Depending on pupils' starting points and SEND, this might start with developing pupils' awareness of sound before moving towards providing lessons in phonics. This will help pupils to read with increasing confidence and fluency.

As pupils move through the school, they will explore a range of ambitious texts in English lessons and more widely, as appropriate. Parents and Carers will be supported to continue to encourage their children to reading, e.g. reading more specialist articles about current affairs, leisure or sport. Reading Champions will be encouraged to help us to celebrate reading and the written word through mentoring peers, making book recommendations and completing book reviews.

4.0 CURRICULUM DELIVERY – IMPLEMENTATION

The curriculum will be delivered in a way that best meets pupils' needs.

4.1 Teaching Hours and Timetabled Lessons

Our school will be open for a minimum of 195 days per year, which includes 5 INSET training days for the staff team.

Pupils will be required to attend school for a minimum of **190 days per year**.

*See our **School Term Dates and Holidays** – available at the office and on our website.*

We are passionate about supporting pupils to fulfil their potential and recognise that every minute spent in school should be valuable. Therefore, pupils will have a full-time programme of learning, totalling **32.5 hours per week**, in line with national expectations for mainstream schools, which we have chosen to follow. These hours include Tutorials, Assemblies, break and lunchtimes, which are all valuable learning times where pupils can develop a range of social, emotional and behavioural skills with support from and under the watchful eye of staff.

Pupils will have five lessons per day, totalling 25 lessons per week. Some of these may be combined to become 'double lessons' for subjects which require more time for learning activities, e.g. Food Technology and P.E.

Our timetable will always be produced thoughtfully so that it meets the individual needs of the existing cohort. This includes planning to reduce transitions, building in lots of opportunities to support social communication and interaction, sensory and mental health needs. The timetable builds in opportunities for clinical and/ or therapeutic support interventions, enrichment, community links and life skills.

4.2 Class Sizes and Staff Support

Class sizes will be small, up to a maximum of five pupils. Many groups might have two, three or four pupils. Pupils will be supported by high ratios of staff which will support effective curriculum delivery. Some pupils might need to work more independently or with additional support in some or all lessons. This might include having a bespoke timetable that take account of strengths and areas of need. Individual interventions are planned as required to support us to close gaps in knowledge and skills, helping pupils to make more rapid progress. By Key Stage 4, we would expect most pupils to be working more independently across their timetable lessons, with support being targeted as required to secure that independence and success for life beyond school.

Our staff team are suitably qualified and experienced. Teaching staff, including Teaching Assistants will be deployed to ensure effective curriculum delivery and to maximise support to meet pupils' individual needs.

4.3 New Pupil Admissions

Pupils joining our school will undergo a range of assessments and observation, as appropriate, during their first 12 weeks. This will help staff to understand their needs and identify strategies to support engagement and appropriate learning. This initial period also ensures that there are no previously unidentified needs. Following this, close collaboration between school staff and any clinicians working with a pupil will support us to tailor provision so that it will meet their needs effectively.

Transition Plans will be implemented for all new pupils, supporting them to integrate smoothly into the school. We will support pupils to move at a good pace towards full-time education on the school site, if this is not appropriate for from day one.

We recognise that pupils will have a diverse range of needs, experiences and difficulties. Some may have anxiety, a history of school refusal, leading to poor attendance at school for significant periods of time. Induction and transition to the school will be bespoke and based on the individual pupils' needs.

4.4 How our Curriculum will be Delivered

Pupils will be challenged and supported to achieve the best possible outcomes and make progress throughout each Key Stage. This will be achieved through high quality teaching of skills, knowledge and vocabulary.

Suitably qualified and experienced **staff** will select the most appropriate **subject matter** for our pupils. Staff will produce Curriculum Maps and detailed Schemes of Work to ensure that the content for each Key Stage is covered appropriately.

Staff will be able to identify any gaps in pupils' knowledge and ensure these are covered appropriately, preparing pupils for the next phase of learning and supporting them to catch up with peers nationally.

Teaching staff will select high quality **resources** and a range of teaching methods within and outside of the classroom to bring each subject to life. Staff will ensure teaching and resources are appropriate to each pupil's age, needs, ability and interests.

The curriculum will be delivered:

- through logically sequenced lessons, which support pupils to build on prior knowledge and make connections.
- by staff who help pupils to remember what they learn and ensure that they make progress in all subject areas.
- in an interesting and inspirational way, helping pupils to develop enjoyment of learning, by helping them to experience success and achieve positive outcomes.
- in a way that supports pupils to be ready for the next stage of learning and life beyond school.

A range of teaching and learning approaches will be used, including:

- learning outside the classroom, in the school grounds and locally by using places of historical, geographical or cultural interest, including museums, galleries and landmarks.
- interactive activities and games.
- exploring new vocabulary and ambiguous language, extended writing opportunities.
- question/ answer, discussion, role play and drama.
- practical activities, including modelmaking, art, dance, music.
- inquiry and project based tasks with opportunities for independent and collaborative learning.
- topic work and cross-curricular learning or themes.

Our curriculum is a vehicle for learning and as such the **curriculum is carefully sequenced** across the Year groups. This supports staff to ensure that pupils revisit prior learning, consolidating knowledge and skills. They will also build on this previous learning, broadening their knowledge, understanding and skillset even further. In this way, pupils will build on their prior knowledge and understanding to make good progress through their learning programmes in each subject.

Teaching staff will have strong knowledge and understanding of the subjects they teach and the varied needs of their pupils. Staff will keep up to date with current developments and initiatives by forming close links with staff from other schools locally. Sharing of best practice is vital, as is developing subject expertise and application.

Through skilful questioning and modelling, staff will break down learning into clear steps. This will support pupils to progress at a logical and steady pace. Staff will know the specific **strategies** that work for each individual pupil and will use this knowledge to make appropriate adaptations to the curriculum. This will ensure that all pupils can access the curriculum, which is deliberately designed to give pupils lots of opportunities to revisit key learning.

Thorough and regular opportunities for **assessment and monitoring** will be built in to help staff to identify any gaps in pupils' knowledge and to target those specific gaps. All of this will help pupils to make good progress through the curriculum. In Maths, for example, as pupils progress through the school and the programmes of learning, they will be able to recognise fractions, perform increasingly complex calculations using fractions and also explain how they performed those calculations. This will demonstrate that they are drawing on prior learning. Sequential learning, using small steps to build on prior learning will be evident throughout the taught curriculum. ***See our Assessment, Feedback, Marking, Recording and Reporting Policy.***

4.5 Delivery at Key Stage 1, 2 and 3

In our experience, some pupils, including those who have significant social and communication difficulties, will respond more positively if their academic needs are met in a static classroom or area for most subjects. This might help to reduce the number of transitions and changes in staffing, allowing pupils to develop confidence and social skills to support needed to progress.

During the 12 weeks following admission to our school, pupils will undergo a range of assessments and observations. These will support staff to identify additional interventions to support the pupil to close gaps in knowledge and skills. Interventions will also reduce barriers to learning to support pupils to engage positively and make good progress. Some pupils will receive clinical or therapeutic input to support their needs. We will build these sessions and interventions into a personalised timetable as appropriate.

Access to specialist teaching rooms and specialist teaching staff will be timetabled as required for all pupils in the school. This will include use of the school's facilities for teaching Science, Food Technology and outdoor education. P.E. will be delivered at the end of the school day and will take place at a range of suitable local facilities, including leisure centres and sports pitches. Pupils will go home to shower.

4.6 Delivery at Key Stage 4

In Years 10 and 11, pupils will follow a core curriculum of English, Mathematics, Science, RSHE (includes PSHCEE), Work Related Learning and Work Experience as appropriate. They will also choose study from several subjects, including vocational learning. Pupils will be supported to secure a range of nationally recognised accreditation, including GCSEs. Key Stage 4 pupils continue to access any clinical or therapeutic input as needed.

4.7 RSHE, SMSC, PSHCEE and Citizenship

Social, Moral, Spiritual, Cultural (SMSC) Education, Citizenship, British Values and Protected Characteristics will be promoted as 'golden threads' throughout so much of what we do, not least during Tutorials, assemblies, standalone days, celebrations and in RSHE/ PSHCEE.

We encourage pupils to respect the fundamental **British Values** of democracy, the rule of the law, individual liberty and mutual respect and tolerance of those with different faiths, beliefs and cultures.

As part of the wider SMSC curriculum, staff will find regular opportunities for pupils to experience awe and wonder, act responsibly and support the school community and their own community. In addition, we help our pupils to learn about the **protected characteristics** as defined in The Equality Act 2010: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation.

Pupils will have an opportunity to be part of a **Student Council** which will enable their ideas to inform decision making and shape our school. As our school grows, pupils will experience 'election' through a democratic selection process, providing representatives from each class and/or Key Stage.

Reading Champions will be encouraged to help us to celebrate reading and the written word through mentoring peers, making book recommendations and completing book reviews.

4.8 Careers and Work Related Learning

All pupils in Key Stages 3 and 4 will have access to independent, **impartial careers advice** from a local careers' advisor. Year 11 pupils from Blackburn and Darwen will also access input from **New Directions**. New Directions provides up to date careers information, advice and guidance on courses, qualifications and careers. They can support us to identify a range of suitable options for continuing education or training beyond school. They can find training and apprenticeships, tailored to pupil needs and interests. This supports us to help pupils to make informed choices from a broad range of career options.

Pupils in Key Stage 4 will complete lessons in Work Related Learning. They will be entered for qualifications in Preparing for Work and Employability (NCFE). This element of our curriculum will support pupils to fulfil their potential and prepare successfully for further learning and work.

Pupils at Key Stage 4 will have access to taster days and work experience with a range of local employers who will have been suitable vetted. As part of our determination to raise aspirations, we will provide all pupils with opportunities to meet people from different jobs in different professions. This will give pupils greater insight and further inspiration about possible careers and roles they might want. Visitors will be invited into school as part of Careers lessons, Tutorials and Assemblies. Where possible, we will make visits to colleges and employers in relevant workplaces. ***See our Careers and Work Related Learning Policy.***

4.9 Monitoring Appropriate Curriculum Delivery

The Head Teacher will ensure that the curriculum is monitored effectively to ensure that where **political issues** are brought to the attention of pupils, either at school, during educational visits or extra-curricular activities, that pupils will be provided with an objective and balanced presentation of opposing views.

The Head Teacher will ensure that staff are clear about our legal obligations to remain impartial and free from bias in teaching. Staff will be clear about the expectation that we will not promote partisan political views in the teaching of any subject in this school.

Pupils will be taught about a diverse range of views, beliefs and ideas, delivered in a systematic and sensitive way. Teaching staff will always consider the pupils' ages, developmental stages, and existing knowledge when planning.

Where we use any external agencies, including charitable organisations to enhance and supplement curriculum delivery and wider school activity, we will ensure that all materials and communication with pupils are appropriate and in line with our legal duties on political impartiality. This supports us further in ensuring we do not promote partisan political views in the teaching of any subject in this school.

5.0 ROLES AND RESPONSIBILITIES

The Proprietor and Chair of school governance are responsible for:

- approving and monitoring the content of this policy
- liaising with the Head Teacher and teaching staff with regard to pupil progress and attainment
- contributing towards decisions made about the curriculum
- ensuring the curriculum is inclusive and accessible to all.

The Head Teacher is responsible for:

- devising Curriculum Maps (long-term plans) and Schemes of Work (medium-term plans) for the curriculum in collaboration with teaching staff and other senior leaders
- communicating the agreed curriculum to the Proprietor and Chair of school governance annually
- producing an annual report for the Proprietor/ governance advising on the progress and standards achieved by pupils and the arrangements made to ensure all pupils could access the curriculum
- ensuring the curriculum is inclusive and accessible to all pupils
- assisting teachers with the planning and implementation of the curriculum, ensuring their workload is manageable
- ensuring the curriculum is implemented consistently throughout the school and ensuring any difficulties are addressed and mitigated as soon as possible
- making any necessary adjustments to the curriculum where required
- keeping up to date with any relevant statutory updates and acting where required
- ensuring teaching materials do not discriminate against anyone in line with the Equality Act 2010
- ensuring the curriculum is accessible to all
- updating and maintaining this policy.

Subject leads are responsible for:

- the overall provision and delivery of the curriculum
- developing a curriculum that provides pupils with a range of opportunities and the skills they need to prepare for later life

- the strategic leadership and management across their curriculum areas, developing and implementing plans, policies, targets and practices within the context of the school's aims and policies
- managing the deployment of other teaching staff, including Teaching Assistants within their curriculum areas, providing appropriate support, challenge, advice and information as necessary
- ensuring high quality lesson planning and delivery in line with the Schemes of Work
- supporting and advising colleagues on issues relating to the subject or curriculum area
- monitoring pupil progress and reporting on this to the Head Teacher
- managing resources effectively to deliver the curriculum
- providing specialist resources for pupils' needs
- ensuring the curriculum is inclusive and accessible to all.

Teaching Staff are responsible for:

- implementing this policy consistently throughout their practices
- devising short-term lesson plans that are reflective of the school's curriculum
- implementing the curriculum in creative ways, appealing to different learning types and keeping pupils engaged in content and achieving well
- ensure those in need receive additional support in lessons
- ensuring that the curriculum is inclusive and accessible to all
- celebrating all pupils' achievements
- reporting progress of pupils ensuring any difficulties identified are discussed and resolved
- monitoring the progress of all pupils and reporting on this to the Head Teacher

6.0 ASSESSMENT AND MONITORING – IMPACT ON PUPIL OUTCOMES

The progress pupils make, including progression over time and how well-prepared pupils are for each stage of learning and life beyond school help us to evidence how effective curriculum delivery is.

6.1 Impact: How We know our Curriculum is Effective

The lasting impact of education on children and young people is lifelong and difficult to measure. However, we do use a range of tools, key indicators and opportunities to support our assessment and monitoring of the curriculum and its delivery. Ultimately, it is about how well pupils are progressing.

These key indicators relate directly back to our intent for the curriculum and its delivery. Pupils will:

- be interested in learning, positively engaged and achieving positive outcomes.
- be able to recall what they learn, build on prior learning and make progress in all subject areas.
- be supported to leave school with a reading age beyond a functional level.
- be well-prepared for each new stage of learning.
- achieve a range of nationally recognised qualifications, including in English and Maths.
- have met the intended outcomes and targets outlined in EHCPs (and PEPs).
- Have career pathways identified, in line with their strengths and interests.
- understand there is a diverse range of workplaces and careers available.
- develop a range of skills transferrable to the workplace and life beyond school.
- be less reliant on adult support over time as they become more independent.

- be socially and emotionally prepared for transition to further education, employment or training.
- feel accepted and valued and will demonstrate improved self-esteem and confidence.
- know how to keep themselves safe, fit and healthy.
- have developed a range of positive coping strategies, supporting them to be resilient.
- have an awareness of their rights and responsibilities and will be able to express their own views effectively and appropriately.
- demonstrate respect, kindness and pride, with an ability to form positive relationships with others.
- be well-prepared as citizens, able to contribute positively to their local and wider communities.

6.2 Assessment

Assessment is key to our approach because it informs planning for the next steps for all pupils. Assessment supports us to monitor the wider impact of our curriculum.

Each term, we will use **iASEND** to track pupils progress and achievement of key concepts and skills. Progress against subject specific targets, EHCP outcomes are monitored through termly and Annual Reviews and the reporting cycle.

Social and emotional progress are monitored through Boxall profiling. This will be complemented by staff observation, data analysis of attendance, positive attitude and engagement in learning, rewards and sanctions.

Experiences related to the teaching of protected characteristics, British Values and SMSC activities are all tracked using SMSC Gridmaker.

Academic progress is formatively assessed against the success criteria for each individual subject curriculum along with summative assessment.

All pupils can be supported to achieve life skill qualifications, e.g. Basic First Aid and Food Hygiene. Key Stage 4 pupils will achieve externally recognised qualifications and accreditation which are both ambitious and reflective of their abilities.

Information gathered from all assessment and monitoring is used to identify and address need. Support will be reviewed and provide for each pupil as required and could include in-class support, one-to-one Teaching Assistant; pastoral, therapeutic or clinical intervention.

Please refer to our Assessment, Feedback, Marking, Recording and Reporting Policy.

6.3 Monitoring

Our monitoring activities ensure that the curriculum offered remains progressive and appropriate, enabling all pupils to achieve positive outcomes.

Monitoring includes:

- planning and work scrutiny
- learning walks focusing on a specific theme
- peer and formal lesson observations
- discussion with pupils about their learning

Staff are well supported through:

- an appraisal cycle which provides support and challenge to deliver high quality provision
- opportunities to undertake pair teaching and peer observations to share best practice
- personalised continuing professional development opportunities
- coaching

The Head Teacher and Proprietor are clear about priorities, including that (aside from safeguarding) the curriculum and its delivery are perhaps the most important elements of any school, its identity and the impact it can have on learners.

The Head Teacher and subject leaders will identify the school's strengths and areas of development as part of the school improvement process. Conclusions will be included in a **School Evaluation Form (SEF)**. Leaders and those responsible for governance will know the school well, including key focal areas for the coming year(s). These will be included in a **School Development Plan**.

The overall **Quality of Education** is scrutinised internally and externally, by a School Improvement Partner and also by Ofsted.

7.0 RELATED POLICIES

- Assessment, Feedback, Marking, Recording and Reporting Policy
- Special Educational Needs and Disabilities Policy
- Equality and Diversity Policy
- Accessibility Plan
- Behaviour, Rewards and Sanctions Policy
- Careers and Work-Related Learning Policy
- Relationships and Sex Education (RSE) Policy

8.0 APPENDICES

Appendix 1: Accreditation and Qualifications

Accreditation and Qualifications

As the school develops, so will the range of qualifications and accreditation opportunities on offer to pupils. Pupils needing to sit examinations in the early months of the school opening, will be supported to do so at other local schools or colleges as appropriate. The school will apply to become an examinations centre in the near future.

Curriculum Area	Title	NQF Level (s)
English	Functional Skills qualification Entry level Certificate English Key Skills Communication GCSE English	Entry 1 - level 1 Entry, 1 and 2 1 and 2
